## CONCERT - Wednesday, August 8th: 7.30-9.30pm

Join Berklee and Women of the World for an evening of songs and stories from around the world.

Formed in 2008, Women of the World has evolved into a sisterhood, as much as it is an professional vocal ensemble. The ensemble believes that learning about myriad cultures in the world (through song) is one of the most powerful ways to gain more understanding about each other. From that understanding, may come acceptance and respect. And from that respect may some day come peace. Despite the differences in cultural tenets, when ones studies a folk song, more often than not, the core story is the same, no matter where you grew up. All over the world, people experience love, joy, heartache, birth, death, pain, sorrow, fear, doubt, uncertainty, hunger, excitement, passion, disappointment, failure, victory, surprise, awe, and wonder. It is these common stories that Women of the World seeks to share.
