

THE ORCHID SCHOOL

Transport Circular - GPS System Approval

Date: 5th March, 2015

Subject: Important announcement for School Transport Users – Pradnya Enterprises about installation of GPS and Image Tracking System in each bus and cost implications related to the same.

Dear Parents,

This is to inform you that we had sent a circular on 2nd February 2015 about informing parents regarding the installation of GPS systems in school buses and the additional cost applicable for the same. (See website if you have missed reading it)

The GPS will help us to track the bus route and see the images from inside the bus after every 10 seconds, which can be monitored by the service provider and will be checked from the school office location at regular intervals also. Each parent will get four messages – one while the bus is about to reach the pickup point, reaches school, afternoon time when the bus leaves school and when the bus is about to reach the drop point.

For the same purpose a specific person will be employed by the service provider to check and monitor the status of the images and location of the buses.

Cost Implications: Rs. 100/- per month will be the cost applicable for this service. It will be additionally charged in the Bus fee challan.

On basis of the majority of the parents' positive response and PTA ratification for installation of the same at extra cost of Rs. 100/-, Pradnya Enterprises will install GPS and Image Tracking system from the coming Academic year – March 2015-16.

Thank You,

Prepared by **Ms. Gauri Gokhale**, Front Office Incharge
Approved By **Ms. Namrata Majhail**, Principal
