Dear Ramya Di,

Thank you so much for a wonderful year where you not only taught the kids the portions required But used so many innovative techniques to make each subject interesting. Gave value to not only studies but also to being a good person in life. Be it helping your classmates, friends or parents or being sensitvie to others thoughts and actions, we could see the thought process put in my child from this age.

The year was filled with learning, fun and enthusiasm.  
Thank you for unfolding the wonderful petal of third std for my daughter. We truely enjoyed the journey.

Regards  
Teena
