Awards—the Concept and the Process

We believe that efforts, talents and achievements need to be recognized, noticed, acknowledged and honored. Awards are seen not only as a “prize” for the outcome, but an appreciation and a celebration of the journey that took them towards this destination.

The categories of awards reflect the Orchid ethos of recognizing each child’s innate potential, acknowledging that areas of excellence and talent are diverse and equally significant. These awards are envisioned to be effective tools to reiterate to the students that the more effort and contribution they put in, the more they will get out of it in the end. We are doing our best to acknowledge and recognize those pupils who deserve to be rewarded and we also hope that this would motivate others as it is setting achievable goals for them.

Awards for which level and why?

Awards are for the Upper Primary, Secondary and Sr. Secondary School. At this age children show readiness to accept and acknowledge their accomplishments. They are aware of their abilities and set targets to aim higher.

The awards are distributed ceremoniously to bring in the essence of success. The students are awarded during the Award Ceremony where the parents are also invited.

The school recognizes both Scholastic and Co – scholastic areas and commendable effort put in by the student.

SCHOLASTIC AWARDS
