

## LPF MATHS AND ENGLISH LITERACY ENHANCEMENT PROGRAM AT KAMSHET - WEEK 8 & 9.

9th August :

This week, we had only one day with the Leela Juniors as Saturday was spent celebrating our Founder's day in school. The students at Kamshet were interested and excited, as usual, and we were happy to see each other after a long week.

In both English and Math, apart from the usual sight word teaching and revision, new topics such as Pronouns and Geometry were introduced. It is always wonderful and inspiring to see young kids, grasping newly learnt material, so quickly and enthusiastically. They were longing for more to be taught.

There was lots to cover on this day, but with the cooperation that the students gave us, it was a fun day, teaching, learning, and always wanting some more time to spend with each other.

We look forward to progressing more and more each lesson, and I'm happy to say that till date, every day has been better than the previous!

16th August :

After Independence Day Celebrations as well as a holiday the previous day from the Kamshet internship, we were pumped to teach and learn more!

Lots of revision, new topics being taught, and increased interaction in English with the Leela Juniors were the highlights! The students particularly enjoyed learning Geometry and the way they tried their best to pronounce huge English Geometrical words was a delight to see! In English, Prepositions were introduced and it was wonderful to see how students associated Marathi words they normally use to find words in English.

With only 3 sessions at Kamshet to go, we are waiting to have better times and experiences in Kamshet. We promise to make the most of these last few sessions, with the hope that the Leela Juniors benefit the most from this internship.

Yours sincerely,  
Tanavii Naargolkar.
