

THE ORCHID SCHOOL

Parent feedback for Ramya (STD III Peach)

Dear Ramya Di,

Happy to see your mail. Sumedha enjoyed all the activities like anything. I was very happy to see her face every day after coming back from the school. Especially the day when she saw the dog. She was very curious every day to update me .

Thanks for all your efforts.

Regards,

Suma (Sumedha mom).

STD III Peach Parents

Ramya Di,

It's awesome to see how children are learning various aspects of studies in a variety of ways. Field trips, discussions, ppts, creative work...the list is endless. It's really amazing to see the ease with which it is introduced to the kids. It's a pleasure to hear Tamanna talk about how she want to discuss some answers given in H.W rather than asking us to tell the answers. The enthusiasm with which they look out for things like birds, insect's nature of everything is just amazing. The care and kindness you show towards them at sensitive times as well is really priceless. The photo you send on sunshine with tamanna was really a very kind gesture. Thank you so much for your efforts.

Regards,

Teena
