

THE ORCHID SCHOOL

Parents of Class IV Sapphire about Cook with Dad

Hi Amarjeet Di,

First I would like to thank TOS for organizing such a wonderful event and also Special Thanks to all the managing team. Your team kept the atmosphere so friendly and cool which made us comfortable immediately and at one point I thought if I am participating in some Cookery Reality show.

The event was so well managed that there was no sign of any chaos. The ingredients provided were simple to understand which helped us decide our menu immediately and also think of some innovative ideas. It was also interesting to see enthusiasm between all the parents and were seriously engaged in preparing their dishes.

I should also appreciate all the judges who showed their courage to taste our dishes and their face expressions were immediately showing the marks we were going to get. All the pupils who participated were also enjoying the event and I am sure they also will think that cooking can be fun and hence help their tired mummies in the kitchen.

I would like to once again thank all the managing team for organizing such a wonderful event and providing us a chance to know our hidden talent. Looking forward for some more events hereafter.

Thanks and Regards and Applause to all the winners

Deven S (Swayam's Dad)

Dear Mrs Tuteja,

I had a lot of fun in the 'Cooking with Dad' event. Atmosphere was full of energy and enthusiasm. Of course there were a few glitches like forgetting some utensils etc. but despite that everything went well.

Congratulations to you and all the other teachers for organizing this fun-filled event.

Best Regards

Dear Amar di,

I attended Saturday's program "Cooking with Dads" and if I am not mistaken, I was one of the few mothers who have participated in this program, as my husband could not attend due to prior commitments at his office.

THE ORCHID SCHOOL

Let me tell you, this was one of the few programs ever I enjoyed so much. I and Rohit really enjoyed working together and I personally feel, it is a very good attempt in bonding with the child. I loved the program so much that, now we have decided to involve everyone in the family in this activity at least once in a month.

I feel this program has helped Rohit to inculcate the habit of helping others while doing any work as well as confidence in terms using various utensils for making the dishes as well understand the usage of various ingredients.

Such programs, I am sure help develop students holistically.

Regards

Anuradha

Mother of Rohit Akundi

It was fun making food with Janhavi, it was a new dish n a new experience for me

Hi,

Thanks for taking the initiative in arranging the unique event - Cook with Dad last Saturday. Together with Adrika I did enjoy the morning thoroughly. Good to see great participation and sense of competitiveness among all the Dads. I guess you have achieved two objectives at one stroke:

- provided opportunity for the Dads to spend some quality time with their Kids, and
- forced the Dads (read lazy ones) to try hands in the households

Look forward to many such events involving both the parents and families.

Thanks once again.

Cheers

Sourav

(D/O Adrika Sen)
