

VED PILLAI GOING ON ROTARY CLUB STUDENT EXCHANGE PROGRAM TO BRAZIL TO EXPLORE CAREER IN FOOT BALL

This has truly been an incredible journey until now and it can only get better with this upcoming trip! To follow your dreams is a very scary and nerve wrecking experience it also the most important experience of one's life. Not everyone is presented with such an amazing opportunity to live their dreams and choose their hobbies for their careers, but all thanks to my parents and the supportive nature I was brought up in for the last ten years of my life as an Orchidian, I am given a chance to live the dream. I am going to Brazil, the footballing nation, to follow my passion for the beautiful game. I am going via the Rotary club student exchange programme and will be living in the city of Santa Catrina in Brazil. I wish to come back home and feel proud of what I've achieved in the yearlong program.

Thanks,

**Regards,
Ved Pillai**
