

PROUD WINNERS AT THE INDRADHANUSH - MODEL MAKING COMPETITION

Two of our dynamic students Parth Khaladkar and Tushar Upadhyay participated in the Indradhanush - Math and Science Quiz. They bagged the third place by making a cost effective lander and rover. There was a budget assigned to each pair of participants and the most pocket friendly model won a prize. This competition was a good blend of Physics and Math concepts. It was held on 30th July 2016 at Sanskriti School.
